

**Your partner
for production efficiency**

High performing elastomer conveyor belt 3M8 U0-U-G5 HS FL

HS® elastomer superior properties combined with a 3-ply construction assure **highest production efficiency and long service life.**

Ideal for **vacuum** conveying in Paper&Printing and Wood processing.

KEY FEATURES	BENEFITS
3-ply construction assures excellent planarity	▶ Perfect product position No product slippage
HS® cover offers high abrasion resistance	▶ Long service life

Unique high performing elastomer

- ▶ **High abrasion resistance.** The unique HS® cover provides an excellent abrasion resistance and a uniform coefficient of friction over time.
- ▶ **Excellent resilience.** The unique HS® properties offer outstanding resilience, high elasticity and resistance to cracking.
- ▶ **Long service life.** The low aging property of the HS® cover provides a long service life and optimized cost of ownership.
